THE PRESS

ANDY W. FRANCISCO. JOHN D. CALDWELL EDITORS AND PROPRIETORS.

OFFICE-NO. 14 WEST FOURTH STREET.

CINCINNATI:

MONDAY......SEPTEMBER 19

Penny Press-Circulation. The increase of circulation of the PENNY Passs within the past thirty days is unprecedented in the history of newspapers in the West. If it grows in like ratio for the nex three months, our blanket cotemporaries wil have to "hang their harps on the willows." "Cheap reading for the million" is our motto.

The Foreign Arrival.

We have meager reports by the Bornesia up to the 3d inst. from London. Nothing is furnished in reference to the steamship Persia.

Two Political Doctors.

We have recently had two of the Illinois faculty of opposite schools of medicine on a hasty tour to this infected political district One or two of the illustrious politicians of the State have cornson their toes, and as they represent each large circles of friends in pol ities, two doctors came among us to prescribe their nostrums for remedies. Doctor Doce-148 was here with a roll of certificates that he could operate for the benefit of G. P., curing efficacionaly, without cutting or pain, al corns, bunions, callosities or other diseases of the feet to which Uncle Sam's subjects were subject. His remedy was a salve called "Popular Sovereignty."

Doctor D. was laboring under a severe hoarseness, but administered, in broken doseto the populace, his famed panacea, each one tapply it for himself in true popular-sovereignty style. He could not prolong his stay beyona day or two, however reluctant he was to leave, and left us only partially cured, to fulfill other engagements. Doctor Lincoln, who has witnessed the operations of DougLas rem edies elewhere, came among us and recom mended STEPHEN as a choice doctor for Ken tuckians. He claimed that Southern people should pay DougLas a very large fee for whahe had already done in southing the sore of their corns. Doctor Lincoln, having re gard to the restoration of SALMON P .-recommended a severer operation, the occa sional use of the knife.

If the party resided in a slave State, hicorn should be tenderly covered with the salve of Douglas; if the party was exposed on the prairies of Kansas, and stumped his toe there the corn of slavery should be cut-at least his patrons should acknowledge that corn to be an evil, which Dr. Douglas, he said, had never committed himself to acknowledge.

The people are very skittleh about taking the advice and remedies of these traveling po litical doctors, and are awaiting the recom mendation of a college of physicians who are called to meet next year at Charleston, S. C., or one further north, at Wheeling, Va.

The Steam Rlow.

Thousands have witnessed the successful working of the steam-plow "Lancaster," invented and patented by Joseph W. FAWKES. of Christiana, Lancaster County, Pennsylvania Three thousand dollars-the first prize at the National Fair at Chicago-has just been awarded him, on the recommendation of an examining committee, consisting of ISAAC A. HEDGES and A. B. LATTA, of Cincinnati, and P. W. GATES, of Chicago. The engine on trial is intended only for large operations, being capable of breaking from twenty-five to forty acres per day. Its actual performance was, in four minutes, to plow a strip of two hundred and forty yards long and twenty feet wide, and the headlands of fifty feet were crossed, one in twenty-seven seconds and the other in thirty seconds—the eight plows being elevated and lowered to and from the ground in the time.

The committee have confidence that a machine of one-fourth the cost and capacity will still successfully compete with animal power. MILES GREENWOOD has secured a right to construct one in this city, to operate on his own farm, in Springfield Township. We soon will have an opportunity in Ohio to observe the practical working of this new labor-saving machine. The "Lancaster" is on its way to be exhibited at the American Institute in New York. Rewards and blessings await the man who is to relieve the prairie farmer and his horses and cattle of the drudgery of breaking up his lands. Young mechanics, a field of invention is open to you on all sides.

Ladies' Washington National Monument Society.

While the numerous distinguished Freemasons from the several States of the Union were in session at Chicago, their wives had a meeting, and formed a constitution and by-laws to regulate the working of an association to collect funds to complete the Washington Monument, now stuck in the mud near the Potomac in the federal city, and stuck for want of funds. Mrs. FINLAY M. KING, of New York, is President. Vice-Presidents were named for most of the States; these are to name in each county of the State a treasurer to gather monument donations. The wives of the Masters of all Masonio lodges to be ex-officio collecting agents. The Vice-President for Ohlo is Mrs. WM. B. HUBBARD, of Columbus; for Kentucky, Mrs. JOHN C. BRECKENBIDGE, of Lexington; for Indians, Mrs. Wu. SHEETS. None but ladies are members, except the Big Treasurer in Washington City. When the women take hold the monument must rise.

The Grand Encampment of the United

States. By the politeness of General Goodlor, of Lexington, Ky., who called on us Saturday, passing from Chicago home, we are furnished with a corrected copy of the newly-inaugurated Grand officers of the Grand Encampment of Knights Templar of the United States, viz: Bir Benjamin Brown French, of Washington City, M. Em. Gr. M.; Sir David Short Goodloe, of Lexington, Ky., V. Em. Dep. Gr. M.; Sir Winslow Lewis, of Boston, Mass., V. Em. Gr. G.; Sir J. V. Z. Blaney, of Chicago, Ill., V. Em. G. Capt. G.; Sir Charles Marsh, of California, V. Em. S. Gr. W.; Sir A. T. C. Pierson, of Minnesota, V. Em. J. Gr. W.: Sir John Simons, of New York, V. Em. Gr. Treasurer; Sir Samuel G. Risk, of Louisiana, V. Em. Gr. Recorder; Sir Abner B. Thompson, of Maine, V. Em. Gr. St. B.; Sir R. M. Henderson, of Lexington, Mo., V. Em. Gr. Sw. B.; Sir Nathaniel P. Jacobs, of MichMechanics' Fair.

Increased interest is expected to be created mong visitors to the Industrial Exhibition of he O. M. I., at Pike's Opera-house, this week. y the practical working of the various sewing aschines, and by the exhibition of the new riumph in machinery, eight different styles of enitting-machines, which knit stockings and nen's under clothing with wonderful rapidity. All mechanics should attend, and all others she have not visited the fair. Our mechanic apport you; it is fair that you support their

An Aerial Caloric.

We walt with interest definite results from he proposed excursion of Mr. Lows, an ingeious acronaut, who is the inventor of a new ir-ship. He takes from earth a useful, wellried calorio engine, to drive a gas globe baloon through the air. We will have to get the lineinnati Bulkan after him, certain. The lovel experiment of a balloon navigated in aid-air, to which is suspended a car of passeners, and a life-boat with screw-propeller, triven by an Entesson engine, will eclipse he wonder-exciting first trip of the Great

The School Census Takers.

In each Ward of the city an authorized erson will call from house to house to take he names and residences of male and female youth, between four and twenty-one years of ge. Don't throw obstacles in his way or uppose he is a tax-gatherer or assessor. He aves \$1 70 to the school fund for every hild's name, legally resident in the city, he mrolls. It is the interest of the public to grant him every facility to get every family prolled. A little slip of paper should be est in the house, giving this statistic, speciving how many boys and how many girls ers in the family, including apprentices and servants, to expedite his laborious duties.

San Juan on the Pacific, and the Pacific

Mission of General Scott. The demand made upon the great general o he day to repair to the Pacific, and by pacific neasures adjust the vexed question as to Amercan military occupation of the Island of Saz Juan, is a meritorious recognition of the warri r's power as a pacificator. The day will come when the navies of the world will ride in the narbors of Puget Sound in Washington Terri ory, and the commerce of the Indies will pass ver the numerous railroad tracks that must ead from her seaports across Ohio to the At antic. Success to the mission of the great general!

The Right kind of Lions.

Mr. ALBERT D. BISHOP, a well-known Amercan engineer, is the lion in London at this ime, he having invented and constructed on he Thames a mammoth derrick, which lifts a thousand tuns at a pull. It raises even the argest sunken ships. McConmick's Reaper has won its harvest of fame abroad and at nome, the French Emperor having with his wn hands presented the gold medal of honor to the agent of this successful American invent or. The name of FAWEES has been redeemed, ince Guy's time, by the hero of the steam plow. Our own LATTA has a fame in all

Grand Masonic Bodies of Ohio.

The next annual grand communications of the Masonic bodies of Ohio will be held in the city of Columbus, during next month, as follows: Grand Encampment of Knights Temp lar, Thursday, October 13; Grand Council of Royal and Select Masters, Thursday, October 13; Grand Chapter of Royal Arch Masons, Friday, October 14; Grand Lodge of Free and Accepted Masons, Tuesday, October 13.

The Great Eastern,

Mr. JAMES PIERCE, one of an enterprising firm of cotton machinists of this city, is one of the passengers in the Great Eastern, now four days out from Liverpool. The arrival of this naval wonder at the city of Portland is confidently expected, after a passage of one hundred and fifty hours. The crowd of applicants for excursion tickets we learn is so great as to require the suspension of the sale of any more tickets.

A North American Masonic Congress. Incipient steps were taken at Chicago on the 14th inst. to form a confederation of Masonic

Grand Lodges. The plan formed is to be submitted for ratification to the several Grand Lodges of the United States; when five of them formally agree to the articles submitted by the convention, the Congress is to assemble and be a regularly constituted organization, to adjust equitably and permanently all agi-tated questions for the benefit of Masonry.

The Ohio State Fair.

The State Fair is to be held this year at Zanesville. We invite all who wish to spend a few days from home to avail themselves of the occurrence there of this great State agriculturai and mechanical exhibition, to visit this hospitable town this week. The railroads offer nalf-fare tickets, good from to-morrow, the opening day.

LATEST BY TELEGRAPH REPORTED FOR THE PENNY PRESS.

Night Dispatches.

Five Days Later from Europe.

ARRIVAL OF THE BORUSSIA.

New York, September 18. The steamship Borussia, from Hamburg and Southampton, has arrived, with dates from London and Liverpool to the 4th inst., five days later than those furnished by the Ocean Queen at Cape Race. The steamer Fulton had arrived at South-

ampton. The advices from the Zurich Conference are to the 1st inst., when, at a meeting of the Plenipotentiaries, the limits of the Lombardian frontiers and the civil and ecclesias tical jurisdiction were considered.

A meeting of the Deputy-Plenipotentiaries of the three powers was also held on the 1st. It is reported that Austria intends to discount the portion of the Austrian debt, which will be transferred to Lombardy and to sell the public

The Emperor of France has intimated to the

counts the parties were in conflict all night Dire on the 26th ult., and several were killed on

both sides.

The English mail-steamer Index was fired on twice from the Spanish fort of Tarifa on the morning of the 26th ult., while her enign was flying. At the second fire a large round shot fell within about fifty yards from the steamer.

A terrible cyclone passed over Calcutta on he 28th of July. Forty-six vessels, including two steamers, were lost in the river Hoogly, nd immense damage was occasioned on shore. Many lives were also lest, but no further par-

iculars have been received.

The Australian mail-steamer North America was lost August 20th, in the Red Son. The nsils and passengers were saved.

It was reported at Paris on Thursday that

Metternich, the Austrian Ambassador, was about to leave on a visit to Vienna.

Business was dull at Paris, on account of the Zurich Conference, and the rentes had de-

Accounts from Madrid state that Spain had withdrawn her Consul from Tangiers, and de-ided to demand satisfaction from Morocco for he outrages at Centa. Orders had been given for the formation of an expeditionary force of

en thousand men.
It is suggested in the London papers that the firing on the steamer Iudus was for the purpose of bringing her to, in order to learn

the state of affairs at Centa.

The first national assembly at Romagna was opened at Bologna on the 1st inc.. by the Governor General, who, in his speech, con-gratulated the people on the alacrity with which hey had hastened to the electoral districts to record their votes.

LIVERPOOL MARKET.

LIVERPOOL, September 3: Cotton-The sales for the week have been 57,000 bales at an advance of ½4. The sales actude 4,000 to speculators, and 2,500 bales to exporters. The sales to day were 10,000 pales, the market closing steady. The stock a port is 650,000 bales. Total imports for the ar ending September 1st, 2.028 000 bales; total amount of yearly sales, 1,873,000 bales.
Advices from Manchester are unfavorable, and all qualities of goods have slightly de-

Breadstuffs - The market closes steady. Wheat has a declining tendency.

LONDON MARKET.

London, September 3. Breadstuffs quiet. Flour closed with an dvancing tendency, and all qualities have ightly improved. LONDON MONEY MARKET.

Londos, September 3. Consols closed at 95%@95%.

Destructive Fire.

Аттывово', September 17. The building of the Attleboro' Steam Power Company was mostly destroyed by fire to-day, regether with several adjoining buildings. The team Power Company's building was occupied by O. Wheelock, thread manufacturer, Thompon & Co , jewelers, Haywood & Driggs, jew-elers, and Wm. Blackington & Co., heop-skirt nanufacturers.

A large building on the north, occupied by A large balloing on the north, becapied by F Bailey, carriage manufacturer, was also destroyed. Mostot his carriages were saved. The building on the south, which was also burnt, was occupied by Everett, Dean & Co. ewelers, and Stundy & Brothers, jewelers. By this fire nearly all the monufacturing business in the place is suspended, and three hundred men and women are thrown out of employ-ment. The loss is estimated at \$75,090. The amount of insurance is unknown.

The Strike at Bergen Tunnel.

New York, September 18. In consequence of the Eric Railroad being blocked up at the Bergen tunnel by the labor-ers, who refuse to let any trains pass until the arrears of their pay are forthcoming, the conto carry thither the passengers destined for the west, and to bring to this city those detained there that have arrived by trains from the west.

Later from Havana. New York, September 18

The steamer De Soto has arrived from Havana with dates to the 13th inst. A royal decree had been promulgated, giving the Cubans a nearer approach to popular representation.

The weather was cool, and the health of the city so much improved that there was scarcely any sickness in port. The sugar market was stagnant, and freights

without improvement. Exchanges continued

Fire at Easton. Penn.

EATON, PENN., September 17. The stables attached to the United States Hotel caught fire this morning. The stables were occupied by the horses attaceed to Dan circus, and twelve of them were smothered. Those lost, however, were mostly train-horses, and his loss will not exceed five thousand dollars.

The fire originated through the carelessness of a driver, who let a fluid lamp fall, causing it to burst and scatter the flames among the combustible contents of the stables.

The damage to the hotel was triding.

Railroad Accident.

Bosron, September 17. Mr. Davis and wife, of New Orleans, while crossing the track of the Worcester Railroad in a carriage, yesterday, were struck by a loco-motive. Mrs. Davis was thrown over a twostory building close by, and instantly killed. Mr. Davis was severely injured.

The Storm at Baltimore.

BALTIMORE, September 17.
The equinoctiel storm, which commenced yesterday, has greatly increased in violence. The wind blew a heavy gale all night from the east, accompanied with torrents of rain, which

River News. PITTEBURG, Sept. 18-P. M.

River nine feet eight inches by the pier-mark, and rising. It has risen eight feet four inches within the last twelve hours. Weather clear and fine. Sr. Louis, Sept. 17-P. M.

The river has fallen about an inch at this point in the last tweety-four hours, with scant five and a half to Cairo. Nothing new from any of the upper streams. Heavy rain from one till three o'clock this afternoon. Weather now cloudy and damp.

Louisville, Sept. 17-P. M. River stationary, with two feet three inches in the canal.

MARRIED,

GARRITT-HILL-On the 14th inst., by the Roy Nathaniel Colver. Bir. Edwin Garritt to Miss Ellen W. Hill: all of this city.

TESTIMONIALS.

From Ex-Governor Corwin.

"Dr. Eally gextracted a Corn forme. I had suf. fered much and long with it. I had tried many rem. edies, without screess. From my present feeling I have little doubt but the cure will be permanent. The operation was performed in a few minutes, and The operation was posting whatever, was attended with no pain whatever, "THOS, CORWIN.

"Cincinnati, September 17, 1850."

From Nicholas Longworth Bernard,

Esq. "Dr. Ra. 'ing has a perated very skillfully, and with out pain, on . "by feet . I can confidently recommend im to my felat. ds. N. L. BERNARD. "Cincinnati, So, "tem) or 17, 1309." him to my felet, ds.

From H. Bruce, Esq., Covington, Ky. "Dr. Ealing performed an op ration on my feet n'arly two years ago, which has, diven full entisfac-tion in performing a perfect cure. H. BRUCE, "Cincinnati, September 5, 1859."

From A. G. Gower, Esq., Resident.

Engineer Cincinnati and Covington Bridge Company. "About two years ago Dr. Ealing operated with much skill on my feet. I have now the satisfactions of stating that I have not felt any return of the sames

the cure being complete and parmanent, "Cinclusati, September 3, 1859."

From W. T. Crawford, Esq., of thes

Firm of Arnold & Crawford. "TWO YEARS ago Dr. Ealing operated on a But 1ion, then in a very bad state. I have now called to thank him for the great relief and comfort I have since enjoyed. The large protuberance is now en-W. T. CRAWFORD. tirely smooth. "Cincinnati, August 20, 1839,"
